Litwiniuk & Company

TOP INJURY LAW FIRM OF 2016 IN CALGARY

FOUNDED IN 1976 BY Larry Litwiniuk, Litwiniuk & Company is a family-run legal firm enterprise that adheres to a simple set of principles – service, trust and hard work. With decades of legal experience and a genuine understanding of what clients and their loved ones are going through, their expertise in a variety of legal areas is unmatched. Since its inception, Litwiniuk & Company has maintained a focus on Personal Injury Cases, Motor Vehicle Accidents, Catastrophic Loss and Fatality Claims, Insurance Disability Claims and more. The experience the firm has developed in these complicated areas of the law ensures that clients’ needs are served with exceptional skill and efficiency. In addition to their high levels of knowledge and experience, each of the lawyers in the firm also brings finely honed negotiation and advocacy skills to every engagement.

While Personal Injury and Motor Vehicle Accident cases are its primary focus, Litwiniuk & Company also offers advice to clients in the areas of Employment Law, Product Liability, and other matters. The

firm’s team of established lawyers make it a priority to represent their clients wholeheartedly and deliver deserved results. They begin with an initial meeting with interested clients, gathering as much information as possible about their potential claim. From the start of this process to the end of it, all costs related to running the claim come out of the firm’s pocket. Litwiniuk & Company’s philosophy is, “we don’t get paid until you get paid”- the firm does not take a fee unless and until it successfully resolves a client’s claim

The ideals and direction Larry Litwiniuk established for the firm more than 30 years ago are embraced by other family members who have become integral members of the team. Larry’s wife, Marianne, was Controller and Office Manager of Litwiniuk & Company for over 35 years, assuming responsibility for accounting, finance, human resources, and general law-office management. In 1995, Larry and Marianne’s oldest son, Todd, joined the firm as a lawyer, followed by their second son, Fred, in 2003; Todd is now the

Managing Partner and Fred is the Director of Business Development and Marketing. The firm is proud to offer exceptional legal services to clients from across Alberta, answering any and all questions and keeping clients informed through every step of the process. Litwiniuk & Company

40 YEARS
HELPING INJURED
ALBERTANS

THE TEAM AT LITWINIUK & Company is known for putting the personal in personal injury lawyers. That's why, for more than 40 years, they've been the choice of Albertans who want an injury law firm that cares about who they are and what they really need.

"We understand the profound impact that an injury accident has on a person's life," says Managing Partner, Todd Litwiniuk. "Before hiring us some of our injured clients describe feeling helpless or powerless, and that the average person has no chance of success against a huge corporation or government bureaucracy."

Some clients may have previously tried to negotiate with an insurance company directly, or attempted to fill out the piles of forms and paperwork on their own, or tried to deal with their employer regarding wage loss or time off work. Others may have hired lawyers on an hourly rate, and had sticker shock as the bills climbed with no end in sight and no guarantee of success. What they all have in common is a wish that they had someone truly on their side and in their corner, with their best interests at heart. And that's what they find at Litwiniuk & Company.

Litwiniuk & Company is proud to be Alberta's injury lawyers – and now a Top Choice Award winner for the second year in a row – but they want you to know why they really do what they do. Because the world isn't fair, insurance companies do have the upper hand, and the deck is stacked against you. The team at Litwiniuk & Company can help make your voice

heard, and tilt the playing field back in your direction. They won't charge you a single cent for their services until your claim is resolved successfully – and if they don't win, you don't pay. They'll also pay all the costs of running your claim, so you don't have to worry about being denied access to justice based on the size of your wallet.

"We do what we do because we believe in fairness, justice, and doing what's right, states Litwiniuk. "We believe that a
